- It can increase by up to 30% the power of your Mac
- It automatically detects the foreground application you are using..
- It appears in the right side of the menu bar
- It doesn't need any installation which makes it very easy to use..
- You can set the percentage of acceleration between 0% and 100%
- It tells the Process Manager of the UNIX layer of Mac OS X to always assign the maximum priority to the foreground application..
- It is absolutely not harmful at all for you Mac and your Applications, since it does not modify anything on your Mac but just optimizes its processing power, only when the application is running..
- NB: We're not distributing our Applications through the Mac App Store, because Apple's fees policy on the Mac App Store is not financially respectful of developers and small and medium companies.. You want to increase by 20% to 30% the speed of your applications without spending money in new hardware? You want to automatically always make the most of the power of your CPU to the foreground application you are using? CPU Speed Accelerator allows you to drastically increase the CPU allocated to your foreground applications to make the most of the power of your Mac.. Minecraft Free Version Download For PcFeatures: CPU Speed Accelerator allows you to drastically increase the CPU allocated to your foreground applications to make the most of the power of your Macintosh.. Mp3 Speed Accelerator 2 85 6 downloads Mp3 Speed Accelerator enables you to speed up your audio files - mp3 files, ogg files and other formats..
- The 'How to intall it?' Paragraph of the documentation has been updated to explain how to install and launch the Application in particular under Mac OS X 10. ceal14251b [Translateit\(free Version Download For Mac](#)
