

[Chapter 3 Lesson 1 Homework Practice Constant Rate Of Change](#)

CHAPTER 3

Linear Functions

Then

In Chapter 2, you solved linear equations algebraically.

Now

In Chapter 3, you will:

- Identify linear equations, intercepts, and zeros.
- Graph and write linear equations.
- Use rate of change to solve problems.

HS-AT-S-EI9 Students will approximate and interpret rates of change from graphical and numerical data.

HS-AT-S-PRF18 Students will relate the patterns in arithmetic sequences to linear functions.

Why?

 **AMUSEMENT PARKS** The Magic Kingdom in Orlando, Florida, is one of the most popular amusement parks in the world. Yearly attendance figures increase steadily each year. Quantities like populations that change with respect to time can be described using rate of change. Often you can represent these situations with linear functions.
